PALMS & POLES

— DECORATIVE LIGHTING —

ASSEMBLY SEQUENCE

1

Step 1: Prep

Tree is unlit;
power source ready.

2

Step 2: Wrap Panel 1

Wrap at the base
and snap closed.

3

Step 3: Lift Panel 1

Slide the closed panel
upward from
the ground.

4

Step 4: Add Panel 2 + connect

Wrap under Panel 1,
secure, then connect
Panel 2 to Panel 1.

5

Step 5: Lift Panels 1-2

Raise the connected
stack to make room for
the next panel.

6

Step 6: Wrap Panel 3 + connect

Wrap at the base, secure,
and connect Panel 3 to
Panel 2 (tied into power).

7

Step 7: Lift Panels 1-3

Slide the connected
three-panel stack
upward from
the ground.

8

Step 8: Repeat

Add the next panel
at the base and
connect to the
panel above.

9

Step 9: Build to full height

Continue stacking and
lifting until the trunk
is covered.

10

Step 10: Fully illuminated

All panels share one
power source for a
seamless warm glow.
